

MOHAMED ELGOHARY

DATA ANALYST | BI & REPORTING

Mansoura - Egypt | elgohary1102003@gmail.com | +201141224519
www.linkedin.com/in/mohamed-elgohary-ai/ | github.com/mohamedhasan60

PROFESSIONAL SUMMARY

Data Analyst experienced in cleaning, analyzing, and visualizing data with Python (Pandas, Plotly, Seaborn) and Excel, with hands-on Power BI experience and working knowledge of SQL. Analyzed 121K+ Amazon India orders (₹78.5M revenue) to uncover top categories, regional performance, and order trends, and cleaned 5,000+ HR records, reducing data inconsistency by 30%. Completed the ITIDA/eYouth freelance data analysis program and two NTI courses (Python for Data Analysis and Machine Learning for Data Analysis); currently completing a Diploma in Data Science & AI (INSTANT). Solved 1,000+ programming problems on LeetCode, Codeforces, and HackerRank, reflecting strong problem-solving skills. Looking to join as a Data Analyst to turn business data into clear reports and dashboards that support decisions.

EDUCATION

B.Sc. in Computer Science — Faculty of Computers & Information, Misr Higher Institute of Commerce and Computers (MET), Mansoura, Egypt **Sep 2021 - Jun 2025**

- Graduation Project: Smart Plant Filtration and Diagnosis System using AI and IoT (Grade: A+)

PROFESSIONAL EXPERIENCE

Freelance Data Analyst — ITIDA Gigs & eYouth (Freelance Training Program) **Sep 2025 - Apr 2026**

- Completed a freelancing skills program (20+ sessions) and selected Data Analysis as the practical gigs track.
- Built a Power BI dashboard for a skincare products client, analyzing product data to support business decisions.
- Analyzed client datasets and produced analytical reports, applying analytical and statistical methods to generate actionable insights.

PROJECTS

Amazon E-Commerce Sales Analysis — Python, Pandas, Plotly **Mar 2026**

- Performed end-to-end EDA on 121,180+ orders from Amazon India sales data (₹78.5M+ total revenue).
- Uncovered key business insights: top-performing category ("Set"), leading state (Maharashtra), and average order value (₹649) to support data-driven merchandising decisions.
- Built interactive visualizations (Plotly, Seaborn) covering monthly sales trends, order status distribution, and regional performance.
- Documented full analysis with a reproducible Jupyter notebook, published on GitHub.

Employees Data Analysis — Python, Excel **Aug 2025**

- Cleaned and processed 5,000+ employee records, reducing data inconsistency by 30% and surfacing 3 key HR performance trends.
- Combined Python analysis with Excel pivot tables and charts to explore performance and department statistics.

Diabetes Readmission Prediction — Python, Scikit-learn **Jul 2026**

- Built an end-to-end ML pipeline on 100K+ patient records; identified and corrected 3 data-leakage sources, correcting an inflated score to a realistic, literature-consistent 0.70 ROC-AUC.

Smart Plant Filtration & Diagnosis System (Graduation Project) — AI, IoT **Jun 2025**

- Led the AI/IoT component of a system diagnosing plant diseases from a model trained on 100,000+ images; graduated with A+.

CERTIFICATIONS

HCIA-AI V4.0 Course — Huawei ICT Academy	Nov 2025
Introduction to Generative AI - Art of the Possible — AWS	Aug 2025
AI Automation N8N Course — Orange Digital Center (24 hrs, Grade: 90%) Built automated AI workflows covering tool integration, chatbots, and deployment.	Feb 2026
Digitera "Tech for Non-Techies" — iCareer & Plan International Egypt (5-day intensive) Covered foundational tech skills, including hands-on sessions in data analysis, Power BI, and n8n automation.	Dec 2025
ITIDA Gigs & eYouth Freelance Training — Certificate of Achievement	May 2026

COURSES

Diploma in Data Science & AI — INSTANT Software Solution - Studying core data science stack: Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly), SQL/ Database fundamentals, and applied mathematics & statistics. - Covering Machine Learning and Deep Learning foundations, alongside Power BI and Excel for business intelligence reporting.	Nov 2025 – Present
NTI – Machine Learning for Data Analysis (120 hours) - Studied supervised machine learning, time series analysis, and an introduction to deep learning. - Completed a capstone project.	Jul 2026
NTI – Python for Data Analysis (72 hours) - Cleaned, analyzed, and visualized datasets using Python and Pandas. - Created reports and charts to extract insights from data.	Jan 2026 – Apr 2026

SKILLS

Data Analysis & BI: Data Analysis, Data Modeling, Data Visualization, Statistics, Power BI, Excel

Programming & Libraries: Python, Pandas, NumPy, Matplotlib, Seaborn, Plotly, SQL

Tools: Git/GitHub, N8N

Soft Skills: Problem Solving, Team Leadership, Communication, Team Coordination

Also familiar with: C++, C#, OOP, Data Structures & Algorithms, SDLC, Linux (Ubuntu)

AWARDS

LeetCode / Codeforces / HackerRank Achievements Solved 1,000+ problems across competitive programming platforms, demonstrating strong problem-solving and algorithmic skills.	Sep 2024
ECPC Egypt Finalist — Egyptian Collegiate Programming Contest Recognized among top competitive programming teams nationwide.	Aug 2025

ACTIVITIES

PR Volunteer — IEEE Mansoura Student Branch - Supported public relations activities and event promotion. - Assisted in organizing technical events and student engagement initiatives.	Dec 2023 – Oct 2025
Head of HR — ICPC Mansoura Community - Led the HR team in recruitment and member coordination. - Managed internal communications and team operations.	Sep 2024 – Aug 2025

LANGUAGES

- Arabic — Native
- English — B1 (Intermediate)
- German — A1 (Beginner)
