CAREER OBJECTIVE

Computer Science graduate with hands-on experience in Python, SQL, and data analysis through NTI training and a 3-month ITIDA-backed program. Proficient in data cleaning, visualization, and reporting, with growing Power BI skills and a solid foundation in business intelligence concepts. Recognized for strong problem-solving abilities with 1,000+ solved programming problems and ECPC Egypt finalist achievement. Seeking a Data Analyst or BI Developer role — preferably in the Technology or IT sector — to transform raw data into actionable insights that support business decision-making.

EDUCATION

B.Sc. in Computer Science — Faculty of Computers & Information, MET

Sep 2021 – Sep 2025

Misr Higher Institute of Commerce and Computers – MET

PROFESSIONAL EXPERIENCE

Data Analysis Trainee — iCareer (Digitera Program)

Dec 2025

- Built interactive dashboards to present data insights clearly and visually.
- Analyzed structured datasets and translated findings into actionable reports.
- Explored n8n automation workflows to streamline repetitive data tasks.

Freelance Data Analysis Program — EYouth & ITIDA Gigs

Sep 2025 – Jan 2026

- Completed a 3-month intensive program focused on real-world data analysis scenarios.
- Worked on practical datasets to generate insights using Python and statistical methods.
- Produced structured reports applying analytical techniques to business data workflows.

PROJECTS

Employees Data Analysis — Python, Excel

Aug 2025

- Cleaned and processed 5,000+ employee records; reduced data inconsistency by 30%.
- Identified 3 key HR performance trends using Pandas and SQL queries.
- Built Excel pivot tables and charts to visualize department performance statistics.
- Combined Python analysis with Excel reports to deliver a comprehensive HR insights summary.

Smart Plant Filtration & Diagnosis System — AI & IoT | Grade: A+

Jun 2025

- Developed an AI-powered system to select optimal crops based on real-time soil sensor data.
- Trained a diagnostic model on 100,000+ images to detect plant diseases with high accuracy.
- Integrated IoT sensors to monitor humidity, temperature, minerals, and salts continuously.
- Delivered treatment recommendations sourced from agricultural specialists' data.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy), C++, OOP & Algorithms

Data & Databases: SQL, Excel (Advanced), Data Modeling, Data Cleaning, Statistics

Visualization & BI: Power BI, Data Visualization, Excel Charts & Pivot Tables

Tools & Workflow: Git, GitHub, n8n Automation, SDLC

Soft Skills: Problem Solving, Analytical Thinking, Report Writing, Attention to Detail

COURSES & CERTIFICATIONS

NTI – Python for Data Analysis (70 hours)

Jan 2026 – Now

- Cleaned, analyzed, and visualized datasets using Python and Pandas.
- Created reports and charts to extract insights from structured business data.

Diploma in Data Science & AI — Instant Software Solution (INSTANT)

Nov 2025 – Now

HCIA – Artificial Intelligence (V4.0) — Huawei

Dec 2025

ACTIVITIES

Head of HR — ICPC Mansoura Community

2024 – 2025

- Led recruitment, member coordination, and internal communications for a 50+ member technical community.

PR Volunteer — IEEE Mansoura Student Branch

2023 – 2025

- Organized technical events and managed student engagement and outreach initiatives.

AWARDS

ECPC Egypt Finalist — Egyptian Collegiate Programming Contest

Aug 2025

- Recognized among the top competitive programming teams nationwide.

1,000+ Solved Problems — LeetCode, Codeforces, HackerRank

Sep 2024

- Demonstrated strong algorithmic thinking and problem-solving skills across platforms.
